IBD examination results

Africa Section 2006

Africa Section continues reporting on the examination results in the following tables. 2006 examinations have increased steadily over previous years.

Greater communication between the Section Committee, the candidates and sponsoring companies has taken place to encourage training and administration processes to try and improve on the poor results experienced in 2005.

In 2006, the number of candidates that have been absent and have had their results withheld due to failure to pay exam fees has reduced.

There has been an improvement in the overall results in M Brew but still not achieved 2004 results in Dipl Brew.

The loss of all exam papers from Nigeria has been the most significant serious event in 2006. The table shows to what extent this has disrupted the candidates situation.

At present alternative arrangements are being made for these candidates to re-sit the exams.

The Africa Section has been conferred Approved Service Provider status and ISOE: "Institute of Sectoral and Organisational Excellence" in partnership with the University of Pretoria by the Food Bev SETA. This has required special attention to candidates taking Dipl Brew at UP and at SAB TI who are also being assessed for the National Brewing Diploma.

AP Section: 81 MB & DP candidates: 5 not paid subs/fees and 1 absent

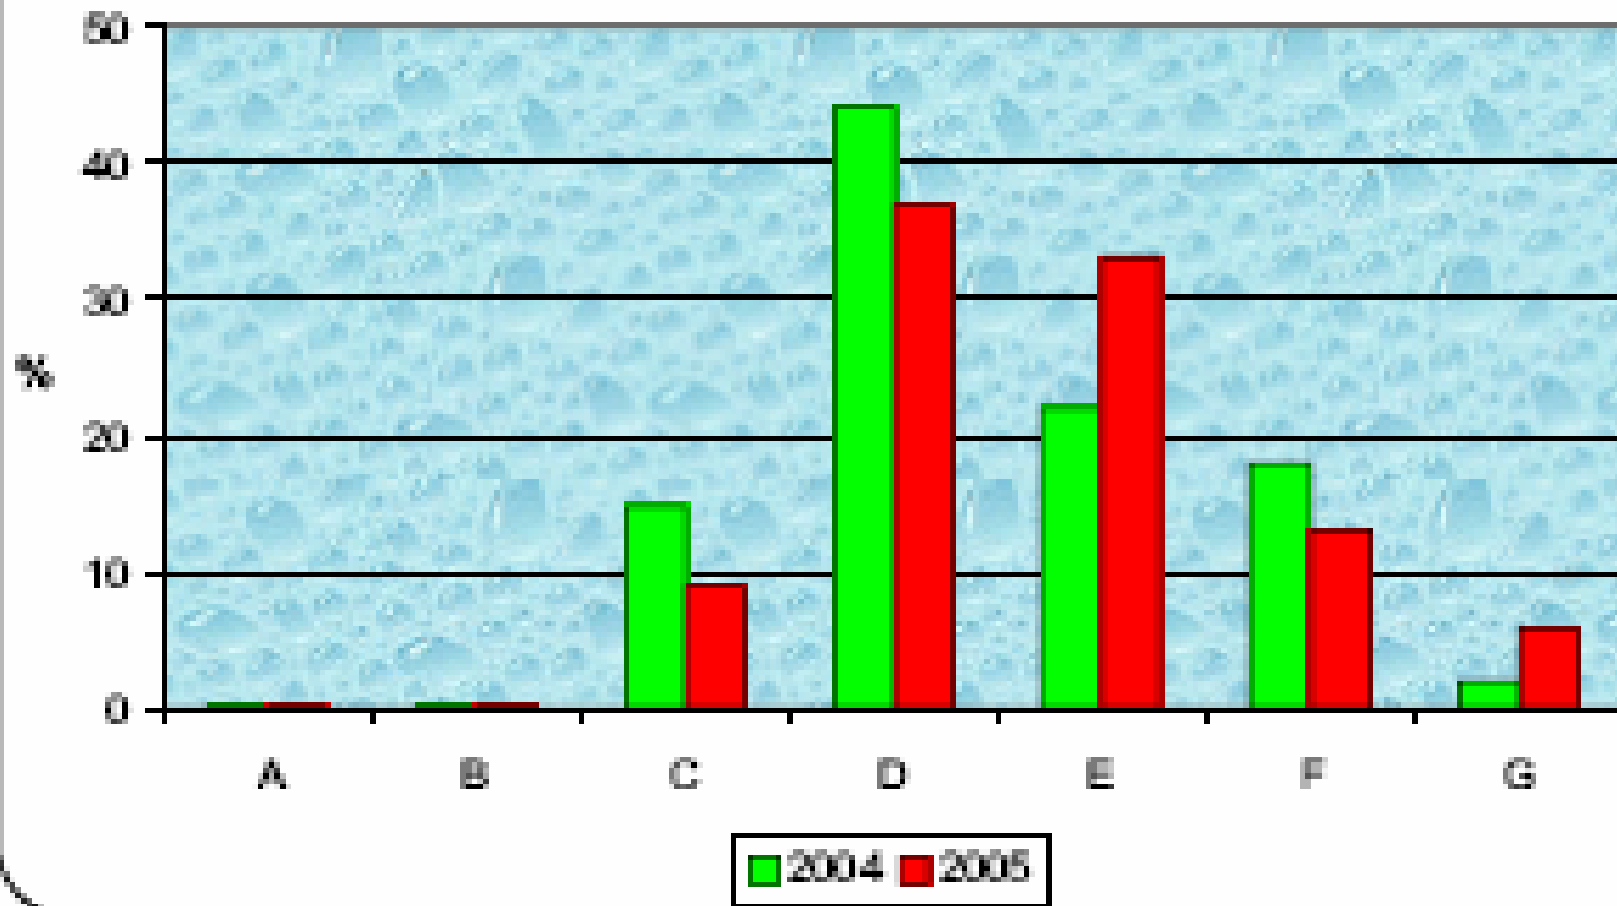

The Dave Fraser Award for 2005, as the Africa candidate with the highest marks, goes to Solomon Ogu. He will be attending the 2007 Convention all expenses paid.

GCBP

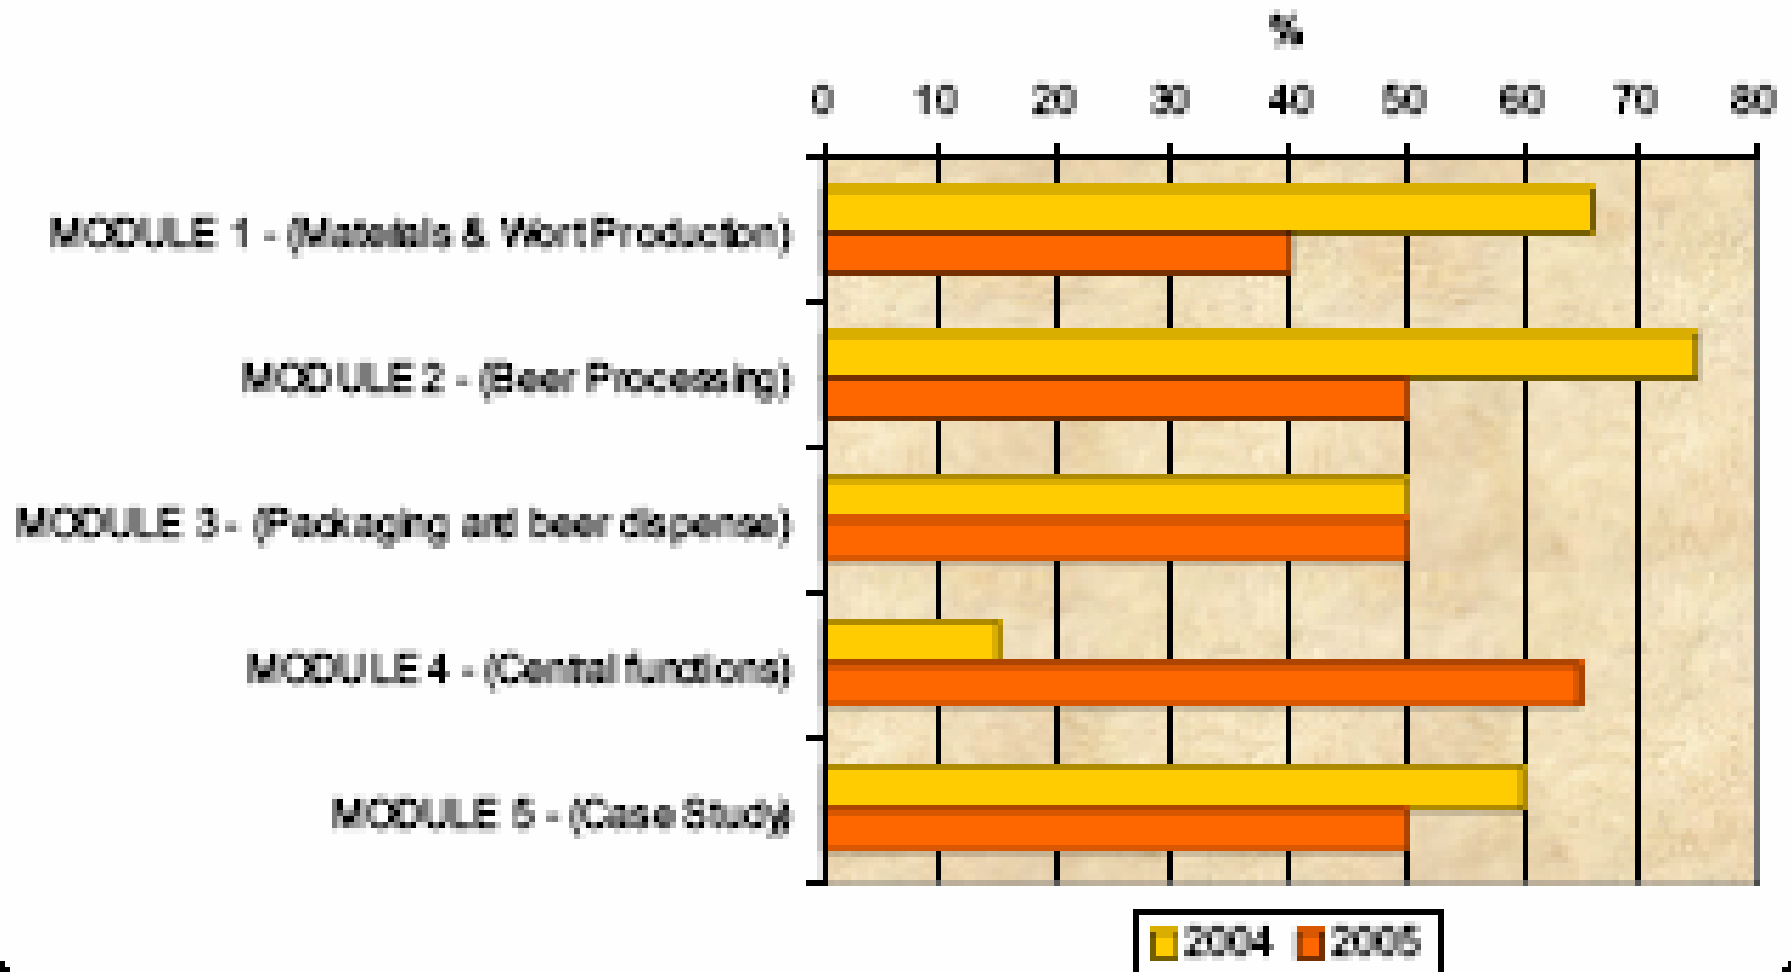

Of the 54 candidates who registered to sit, 11 have not had their results released at the time of writing due to non payment of fees. For the rest, 42% passed, and we congratulate our top two candidates Tshepang Mohafa (RSA) and Anthony Onyeacho (Nigeria) who have B grade passes. Congratulations also to:
